ABOUT ME

Hey there! I'm a Front-End Developer with a passion for crafting engaging web experiences. Currently on a nine-month journey with Codecademy, I'm mastering HTML, CSS, JavaScript, and React like a pro. Oh, and GitHub? It's practically my second home.

I love collaborating with teams, tackling challenges, and staying up-to-date with the latest tech trends. Whether it's fixing bugs, making designs pop, or speeding up websites, I'm all in.

While I'm not fully certified yet, I'm actively working towards it, eager to enhance my skills and grow in the field.
